Navigating the Future

3rd Annual WiSE Event
Saturday, January 31, 2015
9:00 AM – 4:30 PM

Call for Posters

The 3rd annual WiSE event at The University of Alabama lays the foundation for the future academic and career success of women pursuing degrees in STEM (Science, Technology, Engineering, and Mathematics) disciplines at institutions throughout Alabama and the region. The event will provide a full day of opportunities for mentoring and networking, including a keynote session, multiple working sessions, and a poster session.

We encourage undergraduate and graduate students to contribute to and help shape the event through submissions of new or previously presented posters describing research in STEM disciplines.

Poster submissions are accepted in the following categories:

- **Research** — This category is open to posters based on original research. Posters based on completed undergraduate research projects, MS projects/theses, published research papers, and unpublished research papers currently under review fall into this category.

- **New Ideas and Emerging Results** — This category is open to posters based on promising ideas in early stages of research. Posters based on proposals for undergraduate research, MS projects/theses, or doctoral dissertations fall into this category.
- **Literature Reviews** — This category is open to posters based on reviews that identify, select, evaluate, and synthesize evidence from the literature related to a particular research question or topic.

Posters will be judged during the event, and prizes will be awarded to the presenters of the best posters.

Poster abstracts must not exceed 250 words, must be accompanied by a list of 3–5 descriptive keywords, and must be submitted online at [https://podio.com/webforms/9917510/719315](https://podio.com/webforms/9917510/719315) by the deadline of **January 10, 2015, at 11:59 PM CDT**. Notifications of acceptance will be sent by **Friday, January 16th** and will include session times and locations.

Authors of accepted poster abstracts are required to register for and present at the event. Registration is free and must be completed online at [https://podio.com/webforms/9917159/719301](https://podio.com/webforms/9917159/719301) by the deadline of **Wednesday, January 21, 2015, at 11:59 PM CDT**. Posters must be 36 in by 48 in and may be oriented horizontally or vertically.

For additional information about the event, contact Cori Perdue at [cperdue@ua.edu](mailto:cperdue@ua.edu).
